

Medium Cheese Pizza Fund

After a visit to Nicaragua, Todd, in college at a university of 3,000 students, wanted to make an impact on the work of the CDCA... especially for Genesis, the spinning cooperative that he knew had worked for two years without pay trying to make a life for themselves... but what could he do? He had no job and he had his studies. His parents were not millionaires, so...what?

Todd pondered and pondered. One night as he and his buddies were studying, Lisa spoke up, "I'm starving."

"Not as much as the Nicaraguans I saw," thought Todd, but he said nothing.

"Let's get pizza!" suggested Lisa.

Agreement all around... then the light bulb went off in Todd's head....

"While we're ordering pizza for ourselves, let's each chip in \$5.00 to help Nicaraguans, what I'd spend towards one medium cheese pizza this month." This could work, thought Todd, this could really work. So they went door to door from fraternity to sorority to clubs to get the campus participating and collect money.

For two years the CDCA and the Genesis Cooperative have worked to set up a spinning plant; Genesis' 35 members have worked for no pay while constructing their building. We have already done the impossible: the CDCA has loaned \$130,000 in construction materials to Genesis... now we need \$500,000 to help them and to help others.

80% of Nicaraguans survive on less than \$2 per day. They need your five bucks!
To enable others, we are establishing our **Medium Cheese Pizza Fund**.

How does it work? We need students at colleges to:

1. Pledge to donate just \$5 per month, less than the cost of a medium cheese pizza.
2. Get other students to donate \$5 per month & collect the money.

If the entire student bodies of just **three** universities like Todd's pledged just **\$5** per month, in **three months**, the spinning plant could be completed, or other cooperative projects funded – a true cooperative effort.
